Advanced Thai Massage course: Upper Body Concepts & Techniques

After working the feet, legs and lower body in traditional Thai massage, it is important to proceed with your work on the upper body in a targeted and holistic way. This workshop raises your awareness of whole-body energy patterns, and helps you connect your upper-body work to the things you do in the first half of your treatments.

In this popular course you will learn:

- * Specialized techniques to release back tension
- * Creative ways to work the upper sen lines
- * Deep and sensitive Thai abdominal work
- * How to use your feet to sense and release blockages
- * Lifts, spinal twists and suspensions
- * How to use breathing for maximum effect
- * Targeted techniques for shoulders and shoulder blades
- * How to use your body weight to avoid straining
- * How to assess your client's body language
- * Advanced stretches for the back, arms and shoulders
- * How to refine your body mechanics ... *and much more.*

This is an exciting, creative and exploratory course for all those with some previous experience in Thai massage, shiatsu, physical therapy or any other floor-based modality. We work in all body positions, and plenty of time is given for practice and review each day. This is a unique opportunity to study closely with the teacher, and to work in an intimate setting with a small group of people. Join us for this exciting workshop !
